

| S.No | Component                                                                         | Dimensions                                                                          |
|------|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| 1    | CJMCU TCA9548A I2C 8 Channel Multiple Extensions Development Board                | 31x21mm                                                                             |
| 2    | Pro- Range 7.4V 1500mAh 25C 2S Lithium Polymer Battery Pack                       | 74 x 34 x 17 mm                                                                     |
| 3    | GA12-N20 6V 300RPM Micro DC Reducer Motor Encoder with Wire                       | 24x10x11mm                                                                          |
| 4    | NO NC C Touch sensor                                                              | 11x4mm                                                                              |
| 5    | BNO085 IMU Sensor Module                                                          | 26x27mm                                                                             |
| 6    | Raspberry Pi Pico Camera Module 3                                                 | 25x24mm                                                                             |
| 7    | CJMCU-34725 TCS34725 Color Sensor RGB Module                                      | 21x21mm                                                                             |
| 8    | 7 15 Pin 1.0mm Pitch to 22 Pin 0.5mm Camera Cable for Raspberry Pi Zero Version 1 |                                                                                     |
| 9    | SmartElex Mini MP1584 DC-DC 3A Adjustable Buck Module                             |                                                                                     |
| 10   | MG90S 9g Servo Metal Gear - 180 Degree                                            |  |
| 11   | DRV8833 Motor Driver                                                              | 18x21mm                                                                             |
| 12   | VL53L0X ToF x5 (1 back, 4 front)                                                  | 15x12mm                                                                             |
